## **Ashlar-Vellum™ Announces Lithium™ for Sketch-Drafting with Precision**

July 1, 2021, Austin TX. Ashlar-Vellum is proud to announce Lithium v12, the newest name in their Designer Elements product line. Lithium provides easy sketching and drafting for fast product and design development. It's a great way to get your ideas down.

Robert Bou, president of Ashlar-Vellum quipped, "Faster than a speeding cocktail napkin. More powerful than the back of an envelope. Lithium lets you quickly capture your idea, develop it, and preserve it digitally, with all the necessary accuracy.

But lightheartedness aside, Lithium is built on the same engine as Ashlar-Vellum's Argon™, Xenon™ & Cobalt™, providing substantial power and precision with significant ease of use. Running on both Mac and Windows, Lithium supports 64-bit operating systems and 64-bit memory.

If you'd like to take this new software for a test drive, visit their website and download a free trial version at [www.ashlar.com/downloads](http://www.ashlar.com/downloads).

Lithium subscriptions are available monthly for just US \$14.95 or yearly just for US \$95. Better yet, it can be used by the minute through Ashlar-Vellum's new partnership with Infinite Compute on IC's pay-as-you-go platform. Visit [www.infinitee-computer.com](http://www.infinitee-computer.com).

### **About Ashlar-Vellum**

Founded in 1988, Ashlar-Vellum is the leading provider of precision CAD and 3D modeling software on both Mac and Windows, that automates and simplifies the design process for drafting, design, and engineering professionals. Ashlar-Vellum's unique Organic Workflow™ featuring their renowned Vellum® user interface and their powerful toolsets have earned the loyalty of innovators around the world. Ashlar-Vellum operates from its headquarters in Austin, Texas. To learn more call +1 800-877-2745 or visit [www.ashlar.com](http://www.ashlar.com).
